# LTHE Tops EPC Contractors List in Middle East

## Ranked No.1 EPC contractor for 2019 by Oil & Gas Middle East

L&T Hydrocarbon Engineering Limited (LTHE) has been ranked as the top EPC Contractor in the Middle East by *Oil & Gas Middle East* magazine, a leading publication focused on the upstream oil and gas industry in the region. Last year LTHE was ranked second in the prestigious list.

In the list featuring as many as 30 EPC contractors, LTHE took the top spot thanks to a spate of major wins recently and its growing presence in the region. A wholly owned subsidiary of L&T, LTHE won several contracts with Arab oil companies and demonstrated a strong interest in partnership within the region.

Formulating the rankings, the magazine's editorial team took into account financial reports, current and planned projects, overall presence in the region, CSR initiatives, and future potential. It even factored L&T's recent digitalization bid with L&T-Nxt, the initiative aimed at boosting its digital expertise and gaining insight into internet of things (IoT), artificial intelligence, and augmented reality.

LTHE has been serving the hydrocarbon sector since the early 1990s with a track record that includes successful completion of several challenging projects for domestic as well as international clients.
