

Quality Policy

We are committed to advancing our role as a 'Builder of Nations' by delivering consistent, reliable, and Quality outcomes to enhance Customer satisfaction and reinforce stakeholder trust.

Guiding Principles

- Design and build projects, systems & platforms, manufacture products and provide services to meet specific customer requirements within stipulated time schedules.
- To be a learning Company by constantly benchmarking ourselves to the best industry practices and delivering superior value to customers on-quality, on-time, on-budget.
- Achieve operational excellence by adopting best-in-class practices, leveraging digitalisation, innovation and cost-effective practices in all our lines of businesses.
- Effectively implement Quality Management Systems as per global standards to constantly improve our processes, products and services.
- Develop leaders who can adopt and nurture culture of Quality and business excellence to achieve objectives through innovation, entrepreneurship and teamwork.
- Uphold employee morale and motivation by developing and empowering employees through learning, training and competence development.
- Build long-term relationships with customers, stakeholders and strategic business partners based on shared objectives for enhanced value creation.
- Reduce the risk related to businesses, processes, products and services by proactively identifying, reviewing and mitigating risks.
- Compliance with applicable legal, statutory and regulatory requirements reflecting our core values of integrity, responsibility and ethical governance.

We will abide by the principles of this Policy in letter and in spirit.
